For Lower Elementary (K-2)

Math

Help the wildlife center keep track of the wild animals they care for by solving this problem.

The wildlife center is currently taking care of 27 wild animals. The wildlife

center is getting ready to release 8 animals. How many wild animals are left

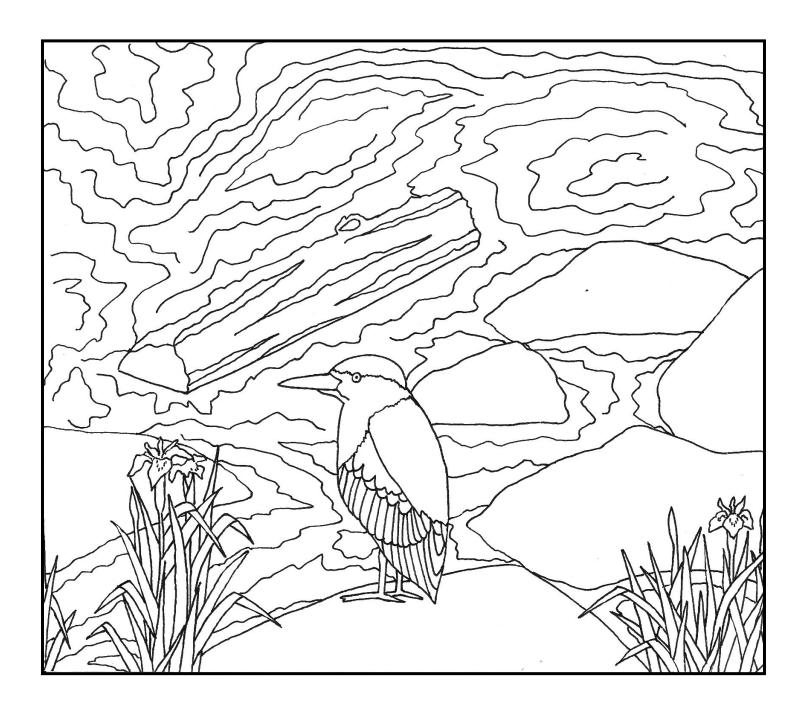

at the wildlife center after 8 are released?						
=						
The wildlife center has space for 35 animals. How many free spaces does the wildlife center have after the 8 are released?						
=						
Does the wildlife center now have enough space for 18 wild animals?						
> or < or = 18						
Science						
With a trusted adult, research to find out where the closest wildlife						
center is to you. Write the name and location of the wildlife center						
below!						
Name:						
Location:
